

Tenure-Track Professorship in the field of

Cellular Quality Control

at the Centre for Molecular Biology of the University of Vienna
(Max Perutz Labs)

We are seeking an outstanding scientist to establish an internationally competitive research group in “Cellular Quality Control”. Research areas of particular interest include, but are not exclusive to, the quality control and repair of macromolecules, organelle homeostasis, ubiquitin signaling, autophagy, the targeted degradation of proteins and other macromolecules, principles of cellular organization and tissue homeostasis.

About the Max Perutz Labs

The position will be located at the [Max Perutz Labs](#) a joint venture of the University of Vienna and the Medical University of Vienna with the mission to catalyze fundamental discoveries in Mechanistic Biomedicine. The aim of the Max Perutz Labs is to analyze & reconstitute complex biological processes across different scales. The Max Perutz Labs provide access to state-of-the-art facilities and are located at the [Vienna BioCenter](#), a leading center for the molecular life sciences in Europe.

Application

Details of the required application documents and their submission can be found at the Job Portal of the University of Vienna. [Please click here.](#)

The closing date for the submission of application is September 23rd.
